

When you want to become a Christian it's much more than just saying a prayer. You are making a commitment to surrender your whole life to Jesus Christ and asking him to be the LORD of your life.

The first thing you must do to accept Jesus is to confess and repent "TURN" from your sins. You simply pray and ask Jesus to forgive you, come into your life and fill you with his Holy Spirit.

Second, you need to get plugged into a local church and be baptized. Baptism is commanded in the Bible for believers as a symbolic expression of "burying your old, sinful nature and being raise up as a new person in Christ."

As you begin reading your Bible and praying you will begin to grow. These things are so important because you are changing your whole way of life! The more you read about him the more you will learn about him, want to be a representation of him, and the more you will fall in love with him!

If you have just prayed this prayer or want to talk more about it please let me know and welcome to the family of God! Hang on for the ride of your life!

Love, Pastor Scott
